College Prep Guide

Brainstorm

Start thinking early about what you want from college. This will help you narrow down your search from the get-go.

Research

Start looking into colleges. Ask counselors for advice, use the Internet, and visit campuses to create a solid list of options.

Apply

When senior year starts, make note of all your deadlines and submit everything on time. Apply for scholarships, too!

Decide

When you get your admissions decisions, compare each offer and make your choice. Then commit for the year.

Go!

Keep up your academics, graduate high school, fill out all the forms, and start packing up your things. Good luck!
